

Laminex®

Commercial Range

Large Format Commercial

Create inspired spaces with the Laminex Large Format Commercial Range. This range of décors has been specially selected for today's Commercial and large scale projects. Vertiboard® is available in cost effective 3600mm x 1800mm panels, with thicknesses of 18mm, 25mm and 33mm in 4 different finishes. The range integrates with the Laminex Lamiwood® and Laminex Multipurpose Compact Laminate ranges.

Laminex Vertiboard is proudly manufactured in Australia.

Fusion[®] Surfaces

Laminex Fusion Surfaces help you build exciting, dynamic and ever inspirational interiors. Made locally in Australia, they are custom built to ensure you achieve your ideal vision. Perfect for just about any internal application, you can choose a design from our exclusive collection of colours, patterns, photographs or text, or create your own unique palette or print. Whatever you decide, the result will be outstanding. So for eye catching doors, walls, benchtops, ceilings and more, explore the stunning possibilities with Laminex Fusion Surfaces.

Laminex Fusion Surfaces offer a range of laminate grades. This means they can be used for virtually any internal application.

Fusion Wet Area Panelling

Fusion Wet Area Panelling can be used as wall linings in wet or dry areas. It has a melamine resin surface on both sides for protection against moisture and warpage. It is highly resistant to scratching and staining, making it ideal for bathrooms, change rooms, toilets, showers, buses, caravans and boats.

Fusion Standard Laminate (Xtra Grade)

Fusion Xtra Grade is a general purpose laminate for interior applications, including benchtops, tabletops, furniture, wall murals, interior signage and exhibition displays. Its hard surface finish provides added durability against scratching, wear and graffiti. Fusion Xtra Grade requires bonding to a suitable substrate prior to installation.

For the full colour offer, refer to the Fusion Surfaces brochure at laminex.com.au
