Static Screens in Empire

● Autex Acoustics  
United Kingdom

# Sheer tranquility

As the name suggests, Cascade™ Hanging Screens are spatial and acoustic partitions that fall elegantly from the ceiling to the floor—fixed or suspended at either end via the Cascade suspension kit.

The Cascade family consists of three distinct screen styles—Static, Folding, and Expanding—each made from 100% polyester fibre with delicate water-cut patterns. Static screens are 1200 mm by 2400 mm, holding space without obstructing sightline in open-plan environments. Folding screens are the same dimensions, but their water-cut patterns fold out, increasing surface area for acoustic absorption. Expanding Screens start at 1200 mm by 2400 mm, growing 100% in size through a series of intricate cuts to form fine, lace-esque patterns.

Lightweight yet sturdy, Cascade Hanging Screens are semi-permanent by nature; easy to install, uninstall, and move around your space as required.

To find out more about Cascade visit [www.autexglobal.com](http://www.autexglobal.com)

#### Features and benefits

- Delivers excellent acoustic performance
- A complete system, simple to install straight out of the box
- Lightweight and incredibly easy to handle on-site
- Easy to retrofit in existing spaces
- Semi-permanent so that you can change your space as required
- Environmentally conscious product with recycled material content and no added chemical binders
- Low VOC, non-toxic, non-irritant, non-allergenic and contains no Red List chemicals—great for IEQ

#### Applications

- Decorative and functional acoustic screen system for interior spaces
- Can be fixed to, or suspended from, ceilings and floors
- Effortlessly creates breakout zones in open-plan spaces

# The Autex Acoustics<sup>®</sup> sustainability pillars

Our sustainability strategy provides the foundation and direction for our sustainability mission and goals. Our sustainability strategy is split into five pillars.

**Climate change** - We aim to maintain our position as a net-zero carbon organisation and offer carbon neutral products. Autex Acoustics began carbon accounting in 2017 and we continue to measure and monitor our GHG emissions which help inform carbon reduction initiatives. Remaining carbon emissions are mitigated using certified carbon credits.

**Purpose and profit** - Our goal is to positively impact our environment, our people, and the next generation. Autex Acoustics has committed a fund to support restorative social and environmental programmes.

**Closing the loop** - We aim to increase the uptake of product stewardship in the construction industry and expand our product takeback schemes to help build a more circular economy. We avoid waste through reducing material inputs to our products and designing for reuse/disassembly. We reuse waste from our manufacturing operations to make more product. We incorporate recycled PET waste into new product and use recyclable cardboard as packaging.

**Wellbeing** - We aim to ensure all current and future Autex Acoustics products avoid harmful chemicals. Our products are simple and designed without any toxic ingredients to support human and environmental health. Autex Acoustics products have a profound impact on the acoustic environment of building interiors and wellbeing of occupants.

**Supply chain** - We aim to eliminate any unethical practices in our supply chain to encourage good working conditions throughout our supplier network. Autex Acoustics carefully selects the best suppliers to ensure we deliver quality products that have a responsible social and environmental track record. As an organisation that relies on a global supply chain, we recognise the pressing—and ongoing—need to eliminate unethical practices within our own supply chain, particularly with regards to modern slavery.

# How we're fighting climate change

The climate crisis is the biggest issue of our generation. As a product designer and manufacturer, we have an opportunity to help improve the carbon impact of our industry.

## Our operational carbon emissions

We are a carbon neutral business. We actively monitor the carbon emissions of our entire operation to better understand our carbon footprint and how we can further reduce emissions. We have an internal strategy to reduce our carbon emissions and have successfully delivered a number of carbon reduction initiatives within our operations. Any carbon emissions that are currently unavoidable are offset through certified carbon credits. We have a commitment to purchase only verified carbon credits that are retired on robust registers to ensure we are driving positive change.

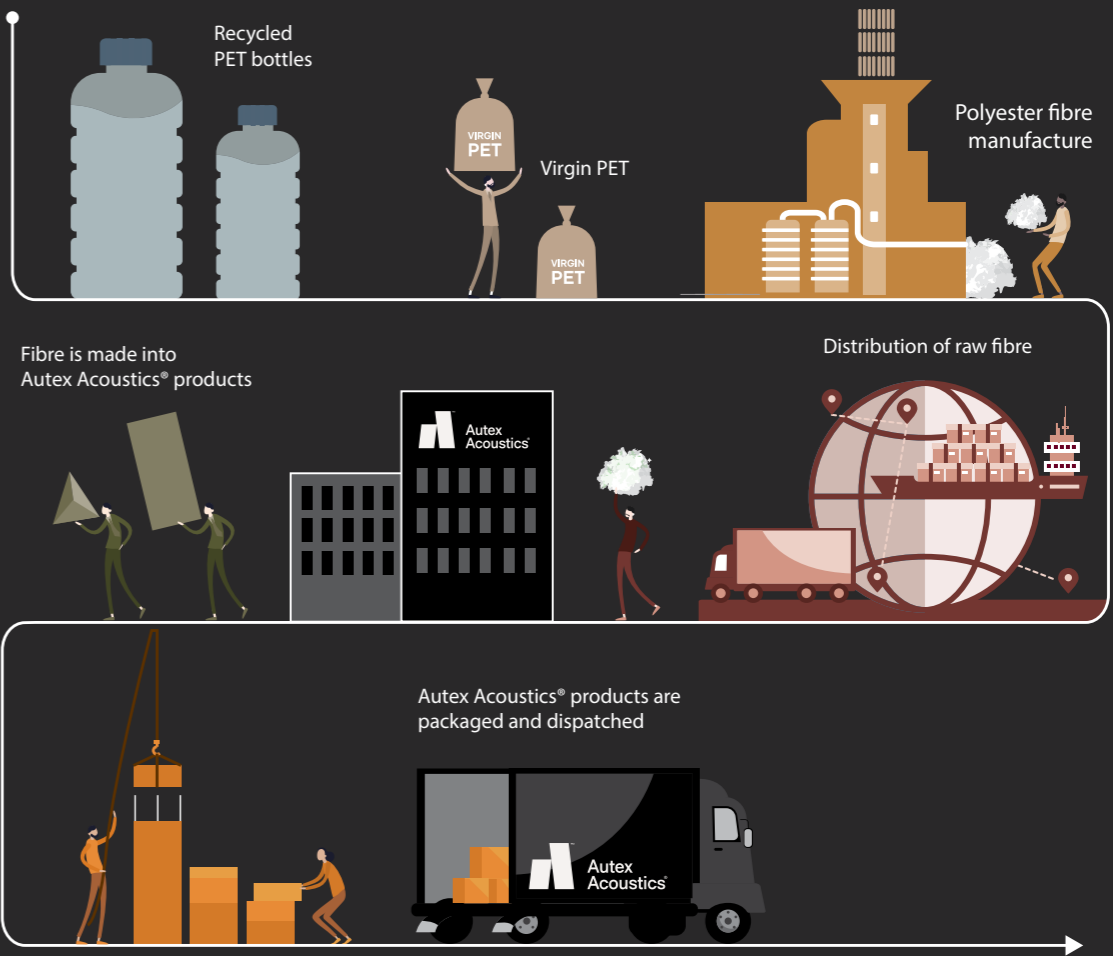

### Key business activities contributing to our operational emissions

## Embodied carbon of our products

Our products are carbon neutral, and we are the first business in our industry to include the cost of carbon in our products. We consider this an investment in present and future generations, and simply a cost of doing business. We calculate the embodied carbon of our products, from the raw material to the manufacturing gate, using industry recognised ISO standards. We have reduced the carbon footprint of our products through smart design and efficient manufacturing. While the embodied carbon of our products is low, they still do have a carbon impact. We mitigate this through our Carbon Neutral Product Initiative by offsetting the equivalent emissions using certified carbon credits. These carbon credits are generated from projects focused on renewable energy, fuel switching and reforestation around the world.

### Key activities contributing to the embodied carbon of our products

# Cascade™ Expanding Screens

In perpetual evolution, the Cascade Expanding Screen blooms and wanes to meet the needs of your space. With a gentle tug, the screen concertinas out, growing 100% in size without off-cuts or cut-outs; an intuitive design that is both environmentally and spatially aware.

# Cascade™ Static Screens

A semi-permanent acoustic screen, the Cascade Static Screen exists in limbo—sheltering you from distractions for as long as you need it to. Fixed or suspended at either end with the Cascade suspension kit, the Static Screen is easily installed, uninstalled, and relocated; equally at home in open-plan spaces that evolve often, and spaces with an established layout.

# Customisation

As creators and innovators, we understand your pursuit of the bold and unusual, the rare and exceptional—the brave, colour-outside-the-lines ideas. Every space you design is unique, therefore, every element—from floor to ceiling—should be tailored to fit. Our customisation tools offer unique avenues for creative expression to help you achieve your vision—all that's left to explore are the boundaries of your imagination.

Our customisation capabilities include Print, Etch™, Groove, Precision Cut, Mould and Press, and Peel 'n' Stick.

To find out more about Cascade visit [www.autexglobal.com](http://www.autexglobal.com)

# Cascade™ suspension kit

Each Cascade screen is supplied with one standard suspension kit for top suspension. All available suspension kit parts are pictured to the left. Additional parts are available for other install methods, detailed on the following page.

Please note that there are two Cascade Expanding Screens per pack, so you will receive two suspension kits.

#### Parts supplied per screen

Frontier™ Channel (A)

Part Number: RAFNEXPC1212

Attachment Set (B,2xC,D)

Part Number: RAHVAS

#### Additional parts

Clips (E)

Part Number: RAFTCC

Suspension Magnet (F)

Part Number: RAMALS1

Ceiling Grid Hanger (G)

Part Number: RADCLS12

# Environmental certifications

## Certifying your green building

Autex Acoustics products meet criteria for WELL, LEED, Green Star, and BREEAM building rating systems, helping you achieve certification for your project. For support and guidance on available rating system points please visit [www.autexglobal.com](http://www.autexglobal.com), or speak with your Autex Acoustics account manager.

### Environmental Product Declaration

An Environmental Product Declaration (EPD) is a document that communicates information about the life-cycle environmental impact of a product, including embodied carbon. Our EPDs are created and verified in accordance with ISO 14025 and ISO 15804, used for construction products and services.

### GreenRate – Level A

GreenRate is a multi-attribute environmental certification that scores products on a range of environmental, health, and social measures. Autex Acoustics products are certified to achieve GreenRate Level A. Level A is the highest GreenRate level and demonstrates the highest level of product sustainability.

### Declare – International Living Future Institute

The ingredients in our products have been reviewed against the Living Future Challenge Red List and achieve a Third-Party Verified 'Red List Free' status.

Products achieve the highest 'LBC Red List Free' status when:

- Ingredients are 100% disclosed and are not found in the Red List
- Products are shown to meet VOC emissions limits

We assure the accuracy of our certifications by having our Declare labels independently verified by a third party expert.

### Health Product Declaration

A Health Product Declaration (HPD) is a document that reports the ingredients of a product and the health effects associated with these ingredients. A Health Product Declaration has been generated for each of our products.

### CDPH Standard

CDPH Standard Method (CA Section 01350) is a widely used standard to evaluate building products for low volatile organic chemicals (VOC) and formaldehyde emissions. All Autex Acoustics products meet the limits set by CDPH and the LEED building rating scheme.

### ISO Certifications

#### ISO 14001 – Environmental Management

Autex Acoustics manufactures under environmental management processes that are ISO certified. This certification gives assurance that we manage any environmental impacts within our operations.

#### ISO 9001 – Quality Management

Autex Acoustics has a strict quality management system that is ISO certified. Robust quality processes from raw material through to product release help ensure our products meet expectations.

#### ISO 45001 – Health and Safety Management

Autex Acoustics manufacturing operations have an ISO 45001 certified Health and Safety Management System to ensure the safety and wellbeing of our people.
